Gary, I would like to spend a few minutes making some comments about the outstanding capabilities that your firm has brought to the stamp world. I have been a stamp collector now for almost 60 years and have enjoyed working with many stamp dealers around the country. Without a doubt your firm, Gary Posner, Inc, has provided me with the best service and the best quality stamps of any of the many dealers who I have worked with.

In particular, I would like to commend Bobby Prager, your partner, for providing incredible service. He is always available. I have never called and not been able to talk to him. I also realize that you have thousands of clients and are continually searching for great new materials to provide to your clients. You are very busy people and yet despite that you always take time to talk and to inquire how family members are – and incredibly to remember the family dynamics months later. Bobby is very knowledgeable about every stamp that has been issued by the United States during the first 100 years of its postal service. Every stamp that we have discussed has turned out to be incredibly good. Stamps are shipped quickly to me and have always arrived safely in packages that were almost as impressive as the stamps that they contained. I am building a US collection of GEM-quality stamps and have had an incredible boost to that collection since we first starting doing business mutually back in early May. I commend you and Bobby for truly outstanding service.

I would also like to commend you for the quality of your new website. It is great! It is easy to use. It is easy to drill down to the kind of stamps that you want. The photo enlargement capabilities to see the actual stamp in a photo 10 times the actual size enables you to really visually evaluate the quality of the front of each stamp. I have recently used the site a lot. My only complaint is that I haven't been quick enough to get all of the stamps that I had an interest in. That, however, is a reflection of the number of competitors that I have in your customer base. Quality companies that have quality products will sell a lot of stamps. That is certainly the case with Gary Posner, Inc.

Sincerely,

Carlton B. Crenshaw
